PROFILE SUMMARY

Innovative Software Engineer with just over 2 years of experience in developing software. Proficient in developing efficient algorithms and debugging complex software.

EDUCATION

Sir John Adamson High School   2018 - 2023
Scholar

WeThinkCode   2024 - 2025
Software Engineering Student(Data Engineering Major)

- Programming Fundamentals, Object-Oriented Programming, Brownfield Development, Web Development, DevOps, and Cloud Development. This program also equips me with vital soft skills necessary for teamwork and professional environments, guiding me on how to navigate the workplace and collaborate effectively with others.

FNB App Academy
Full Stack Development   2025 - 2025

- Covered JavaScript, React, GitHub, UX Design, and app development strategies.

IBM SkillsBuild
Introduction to Web Development   2025 - 2025

- This demonstrates knowledge of web development concepts, processes to develop, deploy, and test websites, and the tools and programming languages that web developers use. I have a conceptual understanding of how to develop an interactive website using HTML, CSS, and JavaScript in a simulated integrated development environment (IDE). I am aware of the job outlook in web development and is familiar with the skills required for success in various roles.
